OBJECTIVE

Detail-oriented Software Developer with experience in full-stack web development, database management, and multi-tenant application design. Skilled in MERN stack, PHP, MySQL, HTML, CSS, JavaScript, and secure authentication. Adept at building scalable, responsive web applications, implementing RESTful APIs, and deploying production-ready solutions.

EDUCATION

Master's in Computer Application

Gurukul Kangri (Deemed University), Haridwar | 2024

Bachelor of Science

Dr. RMLA University, Ayodhya | 2019–2022

TECHNICAL SKILLS

Programming Languages: JavaScript, PHP, MERN (MongoDB, Express.js, React.js, Node.js)

Web Development: HTML5, CSS3, Bootstrap, Responsive Design

Database Management: MySQL, MongoDB, Data Validation, Secure Database Operations

Tools & Deployment: Git, GitHub, Postman, Hostinger, VS Code

Security & Authentication: JWT, bcrypt, Session-based Authentication, OTP Verification

Frameworks & Libraries: Express.js, React.js, Context API, Axios

CERTIFICATIONS

• NPTEL - Introduction to Internet of Things, IIT Madras

• NPTEL - Privacy and Security in Online Social Media, IIT Madras

• NPTEL - Soft Skills Certification

INTERNSHIP EXPERIENCE

Web Development Intern - Utsav Foundation, Gurugram | Jan 2024 - Jul 2024

- Developed full-stack NGO website using PHP, JavaScript, and MySQL.
- Implemented RESTful APIs, secure session-based authentication, and optimized backend performance.
- Deployed production-ready website via Hostinger and managed database security.
- Created admin dashboards, forms, and user workflows to improve operational efficiency.

PROJECT EXPERIENCE

MERN Notes Project

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, bcrypt

- Full-stack notes management application with CRUD functionality.
- Implemented secure login with JWT and hashed passwords.
- Used Mongoose schema validation, Context API for state management, and Axios for frontend-backend communication.

Full-Stack E-Commerce Web App

Tech Stack: PHP (OOP), MySQL, JavaScript, HTML5, CSS3

- Built secure e-commerce platform with modular PHP classes for authentication, product catalog, cart, and order management.
- Applied session-based access control, role-based dashboards, and SQL injection prevention using prepared statements.

Utsav Foundation Website

Tech Stack: PHP, MySQL, JavaScript

- Developed NGO campaign and donation management platform with secure login, form handling, and admin workflows.
- Applied HTTPS, input validation, optimized backend queries, and deployed via Hostinger.

VISION Program Web Application

Tech Stack: HTML5, CSS3, JavaScript, PHP, MySQL

- Multi-role student innovation portal with authentication and role-based access.
- Implemented project submission, selection, sponsorship, and mentorship workflow.
- Integrated MySQL database, RESTful APIs, and mobile-first responsive UI.

School Management System

Tech Stack: PHP, MySQL, JavaScript, HTML/CSS

- Multi-role school management platform with secure login, dashboards, validation, and reporting.
- Implemented role-based access control (RBAC), dynamic modules, and data isolation for multiple tenants.
